

Athanasios Ziagakakis

Full-Stack Developer

Athens, Greece

Email: ziagakisthanos@gmail.com

Github: github.com/ziagakisthanos

Portfolio: <https://ziagakisthanos.com>

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on production experience in Java/Spring Boot and REST API integration. Committed to separation of concerns and writing code that the next developer can actually understand. Actively seeking an entry-level full-stack or back-end role where I can contribute immediately and grow, bringing both technical foundations and the communication developed through years of customer-facing work.

TECHNICAL SKILLS

Languages: Java, Go, JavaScript (ES6+), SQL, HTML5, CSS3

Frameworks & Libraries: Spring Boot, Vue.js, Node.js, Three.js

Databases: SQLite, PostgreSQL

Unit Testing: JUnit, Mockito

Tools & Infrastructure: Linux, Docker, Git / GitHub

Data & Protocols: REST APIs, JSON, XML, TCP/IP

Practices: Agile / Scrum, Clean Code, Structured Programming, Technical Documentation

Currently exploring: Kubernetes (in progress), system design patterns, distributed architecture.

EXPERIENCE

Full-Stack Developer | Schoolster | Remote

Mar 2025 – Dec 2025

- Engineered and shipped new product features in a Java / Spring Boot environment, accelerating delivery velocity up to 60+ story points per sprint.
- Integrated AI-powered chatbot using Anthropic API, enabling automated user support and reducing repetitive support requests.
- Resolved production bugs raised through user change requests, cutting the open defect backlog by over 30% and enhancing platform reliability.
- Designed and maintained REST APIs, ensuring consistent data flow across server and client services eliminating data sync issues.

Additional Experience *(prior to tech career transition)*

Check-In Agent | Goldair Handling, Athens International Airport | *Oct 2021 – Dec 2022*

Barista | Coffee Lab, Kallithea / Status Cafe, Lesvos | *Feb 2018 – Feb 2025*

PROJECTS

NetCat | [TCP-based chat](#)

Go, TCP sockets

- CLI application that supports 5 real-time features: broadcast, private messaging, nickname changes, message history, and per-port logging.

Personal Portfolio Website | <https://ziagakisthanos.com>

Node.js, Three.js, JavaScript, HTML5, CSS3

- Created a full custom portfolio site from scratch, showcasing projects and technical skills with 3D/WebGL elements powered by Three.js.
- Deployed and upheld independently including Google Search Engine Optimization improving visibility and reducing bounce rate up to 18%.

EDUCATION

B.Sc., Department of Geography | University of the Aegean, Mytilene, Lesvos, Greece

2014 – 2023

- Geospatial data analysis and visualization using QGIS combined with Rstudio; applied structured programming and data modeling.

Hands-on Web Development Training | Kreativstorm, Berlin (Remote)

2023

- Covered core web concepts: HTML5, CSS Flexbox, JavaScript fundamentals, version control (Git), and clean coding principles.

Zone01 Athens | Software Development Program, Athens, Greece

In Progress

- Project-based systems programming program involving collaborative software development, peer evaluations, coding challenges in order to sharpen problem solving speed, communication and code quality.

CERTIFICATIONS & LANGUAGES

Certificate of Proficiency in English (ECPE) - University of Michigan

Languages: Greek (Native) · English (Proficient / C2)
